ADDITIONAL INFO

- B driving licence
- Willing to travel

LANGUAGES

- Spanish (native)
- English (B1)

ABOUT ME

Higher Technician in Multiplatform Application Development (DAM) with over 3 years of training and hands-on experience in backend development. I build scalable applications for companies' internal management: process automation, data handling and persistence, business rules and report generation, following a modular layered structure and a microservices architecture.

EXPERIENCE

Developer and Customer Support

MAR 2025 - JUN 2025

Novacenter del Sur (Internship)

- Provided technical support and resolved issues in enterprise software
- Managed and maintained databases
- Developed a Java tool to automate internal processes
- Integrated solutions with MySQL databases and backend services
- Improved efficiency in licence management

Restaurant Web Development (Personal Project)

SEPTEMBER 2025 - DECEMBER 2025

Flor de Tuna - Restaurant

- Designed and built a corporate website focused on customer acquisition and conversion
- Multi-page structure: menu, reservations, gallery and contact
- User experience, navigation and responsive design
- Technical SEO: semantic HTML and an indexing-friendly structure
- Performance optimisation (Core Web Vitals) and a reusable template for clients
